

Educator Guide: Does a High SAT Score Point to College Success (w/ Classroom Viewing Guide)

This guide is designed to support you and your students with these learning objectives:

- 1) Students will analyze information about how well college entrance exams point to academic success.
- 2) Students will evaluate and present arguments in favor of or against the requirement of exam scores.
- 3) Students will create original audio or video interviews to learn more about SAT/ACT personal experiences.

What was their experience like? Do they feel the SAT accurately represents their readiness for college. OR</p> <p>Ask a peer about an experience taking a high-stakes test and whether they felt their scores reflected their overall academic performance.</p> <p>Write 3-4 questions and record your interview using available tools.</p> <p>Tips for creating quality interviews from our friends at StoryCorps</p> <p>Upload interview links (YouTube, Vimeo or Soundcloud) into the discussion using the Make and Share tab</p>

Standards

CCSS.ELA-Literacy.CCR.A.R.1	Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
CCSS.ELA-Literacy.CCR.A.R.7	Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.
CCSS.ELA-Literacy.W.1	Write arguments to support claims with clear reasons and relevant evidence.
D2.His.1.9-12	Evaluate how historical events and developments were shaped by unique circumstances of time and place as well as broader historical contexts.
NGSS.SEP.7	Engaging in argument from evidence
NGSS.SEP.8	Obtaining, evaluating and communicating information
ISTE Digital Citizen	Students recognize the rights, responsibilities and opportunities of living, learning and working in an interconnected digital world, and they act and model in ways that are safe, legal and ethical.

***KQED’s Media Tool Policy:** In KQED Education’s media literacy work, we take an approach to platforms and tools that focuses on developing media-making competencies that are transferable to an individual’s specific technology context. When we recommend software for specific mediamaking activities, our factors for consideration include ease of use, whether the tool is open-source, whether it works across platforms and whether it offers the necessary functionality for the task free of cost. If there are no free tools appropriate for the task, we prioritize the lowest-cost solution able to produce high-quality media.
