

Educator Guide: False Equivalence

[classroom viewing guide](#)

This guide is designed to support your students with these learning objectives:

- 1) Students will **analyze** information about false equivalence..
- 2) Students will **evaluate and present** arguments about the “both sides” approach in news on learn.kqed.org
- 3) Students will **create** a presentation about both sides of a false equivalence news story and what makes the equivalence false.

***KQED's Media Tool Policy:** In KQED Education's media literacy work, we take an approach to platforms and tools that focuses on developing media-making competencies that are transferable to an individual's specific technology context. When we recommend software for specific mediamaking activities, our factors for consideration include ease of use, whether the tool is open-source, whether it works across platforms and whether it offers the necessary functionality for the task free of cost. If there are no free tools appropriate for the task, we prioritize the lowest-cost solution able to produce high-quality media.
